

## Automatic Pocket Designer TS-9011

### Advantages

1. The machine can process 600-900 pockets per hour (depending on fabric and designs).
2. The machine can sew more complex patterns or some patterns which is impossible to person. It can save more than 5 workers.
3. High quality pattern sewer with shuttle hook and automatic thread trimmer as basic head.
4. The movable pocket clamp, over step motor, ensures the perfect pocket position. The position could correct to 0.005mm.
5. Stable and reliable sewing and locating clamps. The type clamps are suitable for fixing various shape pockets.
6. Material collecting system mostly saves the material collecting workforce.

### Specifications
